## 2010 - MEDICARE ACUITY

1.877.541.9690 www.mmpemergency.com

The following table lists the percentage of Medicare emergency department visit levels 99281 through 99285 and critical care services (CPT 99291), both nationally and by state. The percentages for Railroad Medicare are also provided. This table includes allowed services as processed by Medicare for the emergency physician specialty 93, place of service 23, from January 1, 2010 to December 31, 2010. The information was obtained from CMS and is estimated to be 100% complete for 2010. This data is valuable for comparing your physician practice's statistics to Medicare state and national percentages. Medicare may use this comparison to identify "outliers" and to determine which physicians and/or practices may be flagged for potential audits.
